

The D.I.Y. (Do-It-Yourself) philosophy is based on making the most of the things around us, transforming them with our own hands. The possibilities are endless but we'll give you a few ideas to start off:

A storage chest with wheels

1. Choose a pretty colour.
2. Paint your case with Chalk Paint.
3. Fix wheels to it.
4. Put your books inside.

A shelf for your kitchen

1. Choose some paper with an attractive design.
2. Cut it to fit inside the case.
3. Stick it onto the bottom.
4. Find the perfect spot for it in your kitchen.

A shoe storage chest

1. Find a knob and paint it.
2. Attach it to the lid of your Martelo.
3. Add some hinges.
4. And store your shoes inside.

You can find videos that take you through these ideas, step by step, on our website: martelovine.com

Oh! And don't forget to share your creations with Martelo on Instagram, using the #martelism hashtag.

Much more than a wine case

Open me to discover how to give this Martelo wine case a new lease of life

A case of Martelo is much more than a case of wine. Starting from its iconic design, all you need is a good idea and a little skill with your hands to transform this case in a thousand different ways. From a storage chest for your books, to a basket for your bike... the only limit is your imagination.
